DBRR our mission

DB Recovery Resources was founded in 2014 by Deirdre Boyd, the most influential editor in the UK/Europe on how to recover from addictive behaviours, who has dedicated over 20 years' charitable work educating carers and professionals in how to transform people with alcohol/drug/related problems from being burdens on society to valuable contributors, turning despair to hope and health. She champions cutting-edge, evidence-based information for the media, government, counsellors, healthcare professionals, business leaders and more, sharing best practices for treating addiction/dependency.
